SUMMARY

Accomplished Biotechnologist with extensive experience groundbreaking research and biomanufacturing initiatives that have significantly advanced agricultural, pharmaceutical, and diagnostic applications. Spearheading a gene-editing project that yielded a patented drought-resistant crop, enhancing agricultural productivity by 30%. Driving innovation and efficiency, evidenced by authoring influential research papers, improving bioprocess yields and purity, and fostering a high-retention team culture, positioning organizations at the forefront of biotechnological advancements.

EDUCATION

- **University of Maryland**
Bachelor of Science in Biotechnology.
2010 - 2013
- **CERTIFICATIONS**
Certified Biomedical Auditor (CBA)
American Society for Quality (ASQ).
2013 - 2016

WORK EXPERIENCE

- **Biology Group Ltd, New York**
Served as the Biotechnology Research Team Leader.
2016 - 2018
