EDUCATION

Programming Degrees | Drexel University

2011 - 2016

A bachelor's degree in computer programming. These programs train learners in common programming languages such as Python, Java, and C++.

BA in Computer Science | University of Warsaw

2016 - 2020

Computer science combines the principles of engineering, mathematics and science to study and develop computers, networks, hardware, software, databases and much more.

WORK EXPERIENCE

Interbiz | Junior Programmer

2020 - 2023

Wrote code to create web services, enabling seamless integration with third-party applications and improving overall system functionality.

Global Media | Entry Level Programmer

2024 - PRESENT

Collaborated with team members to troubleshoot and debug existing code, resulting in a 25% reduction in software bugs.
